The goal of today’s Hotel Room Hit is to complete every rep as fast as you can! Rest only when necessary, record your finishing time and set new records with every effort! Some of us here at WorkoutLabs can do this in 11 minutes... can you?

**Jumping Jacks**
- **50 reps**
  - Our first exercise of the challenge, bash these out in 1 set.

**Crunches**
- **50 reps**
  - Crunch time, get those shoulders up!

**Jumping Jacks**
- **45 reps**
  - More star jumps, get jumping!

**Lying Leg Raises**
- **45 reps**
  - Make sure your feet stay off the ground at all times.

**Jumping Jacks**
- **40 reps**
  - The reps are getting lower and your heart rate is getting higher!

**Jumping Jacks**
- **35 reps**
  - Don’t worry, you’re almost half-way through...

**Push-ups**
- **35 reps**
  - Big push-ups, get that chest to the floor!

**Jumping Jacks**
- **30 reps**
  - Are you doing these in one set?
Double Crunches
30 reps
Bring the full crunch into play, you’re over half-way through.

Jumping Jacks
25 reps
Half the original amount! Go go go!

Plank to Push-Up
25 reps
Keep going you trooper. Don't forget to alternate arms!

Jumping Jacks
20 reps
Getting there. Make that hotel room nice and hot!

Lateral Lunges
20 reps
That's 20 per leg!

Jumping Jacks
15 reps
No words, just catch your breath.

Twisting Jump Squats
15 reps
A big 15 reps for you... maybe a complaint from those staying in the room below?

Jumping Jacks
10 reps
Your final star jumps, make 'em count.

Burpees
10 reps
Oh, we had to get some burpees in there! Don't worry, there are only 10, finish strong!
Jumping Jacks / Star Jumps

Primary muscle group(s):
Glutes & Hip Flexors, Quadriceps

Secondary:
Abs, Calves, Hamstrings, Shoulders

Stand with your feet together, arms fully extended with your hands by your sides. This is the start position.

Bend your knees slightly then straighten and push through the balls of your feet while straightening your knees to jump up spreading your legs to wider than hip width apart.

As you do so, raise both arms out and up in a smooth arc until your hands meet above your head.

As you return to the ground, bring your feet together and your hands back to your sides with your arms fully extended.

Continue without pause for the desired amount of time or repetitions.

* This exercise can be performed as a timed exercise, completing as many reps as possible in a set time or, in sets with a fixed number of repetitions per set. To increase intensity, bend your arms slightly as you raise them to engage your biceps and triceps and squeezing them during each rep.

Crunches

Primary muscle group(s):
Abs

Lie flat on your back with your feet flat on the ground, with your knees bent at 90 degrees. Alternatively, you can place your feet up on a bench a few inches apart with your toes turned inwards and touching.

Place your hands lightly on either side of your head.

Keep your elbows in so that they are parallel to your body.

Push your back down flat into the floor to isolate your abdominal muscles.

Gently curl your shoulders forward and up off the floor.

Continue to push down into the floor with your lower back.

Raise your shoulders about four to six inches only.

Hold and squeeze your abdominal muscles for a count of one.

Return to the start position in a smooth movement.
**Jumping Jacks / Star Jumps**

Primary muscle group(s):
Glutes & Hip Flexors, Quadriceps

Secondary:
Abs, Calves, Hamstrings, Shoulders

Stand with your feet together, arms fully extended with your hands by your sides. This is the start position.

Bend your knees slightly then straighten and push through the balls of your feet while straightening your knees to jump up spreading your legs to wider than hip width apart.

As you do so, raise both arms out and up in a smooth arc until your hands meet above your head.

As you return to the ground, bring your feet together and your hands back to your sides with your arms fully extended.

Continue without pause for the desired amount of time or repetitions.

*This exercise can be performed as a timed exercise, completing as many reps as possible in a set time or, in sets with a fixed number of repetitions per set. To increase intensity, bend your arms slightly as you raise them to engage your biceps and triceps and squeezing them during each rep.*

---

**Lying Leg Raises / Lifts**

Primary muscle group(s):
Abs

Secondary:
Lower Back

Lie on your back on a mat with hands under your lower buttocks on either side to support your pelvis.

Legs straight out in front of you, ankles together and feet slightly off the floor.

Keep your knees straight and raise your legs by flexing the hips until they are completely flexed.

Return to starting position.
**Jumping Jacks / Star Jumps**

Primary muscle group(s):
G**lutes & Hip Flexors, Quadriceps**

Secondary:
Abs, Calves, Hamstrings, Shoulders

Stand with your feet together, arms fully extended with your hands by your sides. This is the start position.

Bend your knees slightly then straighten and push through the balls of your feet while straightening your knees to jump up spreading your legs to wider than hip width apart.

As you do so, raise both arms out and up in a smooth arc until your hands meet above your head.

As you return to the ground, bring your feet together and your hands back to your sides with your arms fully extended.

Continue without pause for the desired amount of time or repetitions.

* This exercise can be performed as a timed exercise, completing as many reps as possible in a set time or, in sets with a fixed number of repetitions per set. To increase intensity, bend your arms slightly as you raise them to engage your biceps and triceps and squeezing them during each rep.

**Air Squats**

Primary muscle group(s):
Quadriceps

Secondary:
Abs, Hamstrings

Place your feet at shoulder width apart while keeping your chest up and your abdominals braced.

Begin the movement by swinging your arms up towards your shoulders. At the same time, bend at the knees and drive your hips back like you’re sitting in a chair.

Once your upper thighs are parallel with the ground, pause, then drive your hips forward to return to the starting position.
**Jumping Jacks / Star Jumps**

Primary muscle group(s):
Glutes & Hip Flexors, Quadriceps

Secondary:
Abs, Calves, Hamstrings, Shoulders

Stand with your feet together, arms fully extended with your hands by your sides. This is the start position.

Bend your knees slightly then straighten and push through the balls of your feet while straightening your knees to jump up spreading your legs to wider than hip width apart.

As you do so, raise both arms out and up in a smooth arc until your hands meet above your head.

As you return to the ground, bring your feet together and your hands back to your sides with your arms fully extended.

Continue without pause for the desired amount of time or repetitions.

This exercise can be performed as a timed exercise, completing as many reps as possible in a set time or, in sets with a fixed number of repetitions per set. To increase intensity, bend your arms slightly as you raise them to engage your biceps and triceps and squeezing them during each rep.

---

**Push-ups / Pushups**

Primary muscle group(s):
Chest

Secondary:
Abs, Shoulders, Triceps

Get into position by placing your hands flat on the floor, directly below your shoulders. Extend your legs out behind you, with only your toes and balls of your feet touching the floor.

Hold your body up and keep your back straight by tightening your abdominal muscles. Your neck and head should be bent slightly back.

Lower your chest towards the ground by bending your elbows until your chest is just above the ground or you feel a stretching of your chest and shoulders. Hold for a count of one.

Press upwards from your chest and shoulders, straightening your arms as you return to the starting position. Hold for a count of one.

Repeat.
Jumping Jacks / Star Jumps

Primary muscle group(s):
Glutes & Hip Flexors, Quadriceps

Secondary:
Abs, Calves, Hamstrings, Shoulders

Stand with your feet together, arms fully extended with your hands by your sides. This is the start position.

Bend your knees slightly then straighten and push through the balls of your feet while straightening your knees to jump up spreading your legs to wider than hip width apart.

As you do so, raise both arms out and up in a smooth arc until your hands meet above your head.

As you return to the ground, bring your feet together and your hands back to your sides with your arms fully extended.

Continue without pause for the desired amount of time or repetitions.

This exercise can be performed as a timed exercise, completing as many reps as possible in a set time or, in sets with a fixed number of repetitions per set. To increase intensity, bend your arms slightly as you raise them to engage your biceps and triceps and squeezing them during each rep.

Double Crunches

Primary muscle group(s):
Abs

Lie on your back. Bring your knees up to a 90-degree angle. Shins should be parallel to the floor. Place your hands behind your head and bring your shoulders off the ground.

Exhale and contract your abdominals. Bring your head towards your knees while moving your knees toward your chest.

Pause and return to the starting position.
**Jumping Jacks / Star Jumps**

Primary muscle group(s):
Glutes & Hip Flexors, Quadriceps

Secondary:
Abs, Calves, Hamstrings, Shoulders

Stand with your feet together, arms fully extended with your hands by your sides. This is the start position.

Bend your knees slightly then straighten and push through the balls of your feet while straightening your knees to jump up spreading your legs to wider than hip width apart.

As you do so, raise both arms out and up in a smooth arc until your hands meet above your head.

As you return to the ground, bring your feet together and your hands back to your sides with your arms fully extended.

Continue without pause for the desired amount of time or repetitions.

💡 This exercise can be performed as a timed exercise, completing as many reps as possible in a set time or, in sets with a fixed number of repetitions per set. To increase intensity, bend your arms slightly as you raise them to engage your biceps and triceps and squeezing them during each rep.

---

**Plank to Push-Up / Pushups / Walking Plank Up-Downs**

Primary muscle group(s):
Abs, Shoulders

Start in the plank position with your elbows shoulder-width apart.

Press yourself up from the floor one arm at a time into a push-up, maintaining your body in a straight line.

Slowly return to the starting plank position the same way, one arm at a time.

Repeat the movement alternating sides.
**Jumping Jacks / Star Jumps**

Primary muscle group(s):
Glutes & Hip Flexors, Quadriceps

Secondary:
Abs, Calves, Hamstrings, Shoulders

Stand with your feet together, arms fully extended with your hands by your sides. This is the start position.

Bend your knees slightly then straighten and push through the balls of your feet while straightening your knees to jump up spreading your legs to wider than hip width apart.

As you do so, raise both arms out and up in a smooth arc until your hands meet above your head.

As you return to the ground, bring your feet together and your hands back to your sides with your arms fully extended.

Continue without pause for the desired amount of time or repetitions.

* This exercise can be performed as a timed exercise, completing as many reps as possible in a set time or, in sets with a fixed number of repetitions per set. To increase intensity, bend your arms slightly as you raise them to engage your biceps and triceps and squeezing them during each rep.

**Bodyweight Side Steps / Lateral Lunges**

Primary muscle group(s):
Glutes & Hip Flexors, Hamstrings, Quadriceps

Secondary:
Abs, Calves

Stand tall with a tight core and make sure your feet are shoulder-width apart. Bring your hands together for balance.

Step directly to the left, leaving your right foot in place. Bend the left knee and pause once the upper left thigh is parallel to the ground. Your right leg should be completely straight.

Contract the hamstring muscle then push off the ground to return to the starting position. Repeat on the right side. Alternate this movement.
Jumping Jacks / Star Jumps

Primary muscle group(s):
Glutes & Hip Flexors, Quadriceps

Secondary:
Abs, Calves, Hamstrings, Shoulders

Stand with your feet together, arms fully extended with your hands by your sides. This is the start position.

Bend your knees slightly then straighten and push through the balls of your feet while straightening your knees to jump up spreading your legs to wider than hip width apart.

As you do so, raise both arms out and up in a smooth arc until your hands meet above your head.

As you return to the ground, bring your feet together and your hands back to your sides with your arms fully extended.

Continue without pause for the desired amount of time or repetitions.

This exercise can be performed as a timed exercise, completing as many reps as possible in a set time or, in sets with a fixed number of repetitions per set. To increase intensity, bend your arms slightly as you raise them to engage your biceps and triceps and squeezing them during each rep.

180 / Twisting Jump Squats

Primary muscle group(s):
Calves, Hamstrings, Quadriceps

Secondary:
Abs, Glutes & Hip Flexors

Begin standing tall with a tight core. Your chest will be up and your gaze will be straight ahead. Bend at the knees and drive your hips back as you lower yourself into a squat position.

Launch yourself up while simultaneously twisting to the other side. Your body will perform a 180 degree turn in midair.

Land with bent knees and immediately go right into another jump squat, turning to the starting position. Repeat this alternating pattern.
Jumping Jacks / Star Jumps

Primary muscle group(s):
Glutes & Hip Flexors, Quadriceps

Secondary:
Abs, Calves, Hamstrings, Shoulders

Stand with your feet together, arms fully extended with your hands by your sides. This is the start position.

Bend your knees slightly then straighten and push through the balls of your feet while straightening your knees to jump up spreading your legs to wider than hip width apart.

As you do so, raise both arms out and up in a smooth arc until your hands meet above your head.

As you return to the ground, bring your feet together and your hands back to your sides with your arms fully extended.

Continue without pause for the desired amount of time or repetitions.

This exercise can be performed as a timed exercise, completing as many reps as possible in a set time or, in sets with a fixed number of repetitions per set. To increase intensity, bend your arms slightly as you raise them to engage your biceps and triceps and squeezing them during each rep.
Burpees / Squat Thrusts

Primary muscle group(s):
Abs, Glutes & Hip Flexors

Secondary:
Chest, Shoulders

Stand straight with your feet shoulder width apart and hands by your sides. This is the start position.

In one smooth motion, squat down and place your hands palms down on the floor in front of your feet.

Lean forward, so your weight is on your hands, at the same time jumping your legs out behind you until they are fully extended. Your body should form a straight line with your weight supported on your toes and the balls of your feet and your arms fully extended. (In a push up position)

Jump your feet out by spreading your legs, so that they are wider than hip width apart, then immediately jump them back together.

Complete 1 full push up.

Jump your feet forward to just behind your hands.

Use an explosive motion to push through your heels and return to the start position.

Repeat.
